FIRST THINGS FIRST

This month's meeting is this **Tuesday, June 10**. The Board of Directors will meet at 6:00 p.m.

Dinner is at 7:00 p.m. after the Board of Directors' meeting, and is \$10.00 per person. Our chef for the month will be Robin Tatman.

Our program will be a presentation on the latest news from NASA by Yayoi West.

We have a new Treasurer, Ray Gallarate, and a new mailing address, EAA 1268, PO Box 234, Vineburg, CA 95487-0234. Please send your dues renewal checks to EAA 1268, PO Box 234, Vineburg, CA 95487-0234.

PRESIDENT'S REPORT

Captain Robin Tatman, Chapter 1268 President

> Greetings -

>

> Our Ray Scholars are all registered and scheduled for flying this month. So, when you see Roger, Aldren, and Alex around the airport ask them how their training is going! Aldren is

the first of the bunch to take his Private Pilot Written Exam and he got a 90%! Great job!! Now he can show the other two how he did it...

> Today at Young Eagles we added a new fundraiser for our scholarships in the form of a Breakfast Burrito Bundle. It included an egg, potato, cheese, and bacon or sausage burrito, banana, and a choice of orange juice or coffee and water for \$10. Frequently kids and parents wait an hour or more for their flight, and our donuts and fruit dry up pretty quickly.

> We've thought about doing something like this in the past but have never had the staffing. One of our Young Eagles parents, Ilario Gallo suggested the idea and volunteered to coordinate. Marsi as usual is stepping up to assist and give this a try. Great idea! The burritos sold out, and it seemed that people were happy to have something to munch on while waiting. I'll report on the net proceeds at the meeting.

> We had another \$1,000 month for May at our Saturday Hamburger Fundraiser. This allows us to fund our Ray Scholars, and our Air Academy participants who will be flying out to Oshkosh next month. A big thank you to all of our members and airport folks who come out many Saturdays a year to support us. And the other big thank you goes to all of our consistent and hard-working volunteers led by Marilyn Siebert and backed up by Marsi Allard and Rony Kurniawan. We could not keep this going without you.

> Our speaker this month will be Yayoi West who will be giving us several updates on the NASA program. She was at Young Eagles today with a table and all kinds of cool NASA stuff for the kids to look at.

> I don't believe have any Celebrity Chefs signed up for dinner for June so I will jump in and start cooking for the meeting on Tuesday.

> Sadly, we lost another longtime member of EAA 1268 two weeks ago. Ernie Ganas passed

away from congestive heart failure. He has been a wonderful resource for the Chapter, and always full of smiles and great stories. Darrel has information to share about his memorial, and I will have a card for members to sign at the meeting. He will be greatly missed.

The Petaluma Airport is having their Petaluma Airport Summer Bash on Saturday, June 21 in two weeks from 10:00 to 3:00pm. They had a good turn out last year, and Marc Ashton is promising that it will be bigger and better than last year. Eddie Andreini's P-51 Mustang will be there with three other P-51s, and other WWII Aircraft. Henry I from the Sonoma County Sheriff's Office and Reach Helicopters will be on display. The Two-Niner Diner will be open, and there will be several on-site food vendors. Go to visitpetaluma.com for more information. They would love to see us there!

>

> See you Tuesday at the meeting.

Robin

VICE-PRESIDENT'S REPORT

We're sad to report that we've lost two of our members recently, Roland Gangloff and Ernie Ganas.

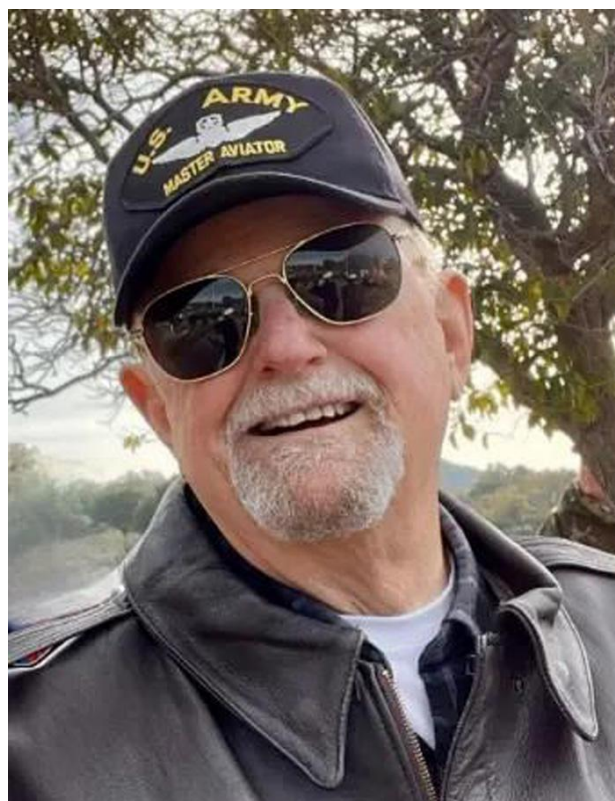

Roland, striking a pose, a great one at that

Roland was the scholarship coordinator for Chapter 1268 for many years, and only stepped down from the Board of Directors to deal with his health issues. He was the main dinosaur man in Alaska, and wrote a book, "Dinosaurs Under the Aurora" while working as a professor for the University of Alaska Fairbanks. Roland passed away on May 18.

For more information on Roland, follow this link to an article about his experiences in Alaska.

[Roland Gangloff article](#)

Ernie, with his usual smile

Ernie came over with some of his Gness Field buddies and fit right into the social activities in Chapter 1268. He gave a talk on his experiences flying from Chrissy Field in the Presidio in San Francisco, and was one of our regular cooks, barbecuing up his specialty tri-tip dinner each year for the Chapter 1268 members. Ernie also donated the computer the Chapter uses for the flight simulator.

Ernie's obituary is at:

[Ernie Ganas obituary](#)

There will be a celebration of Ernie's life Wednesday, June 11, from 2 to 5 pm at Trek Winery, 1026 Machin Ave., Novato. You are asked to RSVP by June 11 at Katinka.sante@comcast.net or call/text 415-342-1195.

Sindy asked me to again let our members know that we need cooks for upcoming meetings. I've included the dinner suggestion list at the end of the newsletter, and remind everyone that you would be bringing dinner for about 30 people, although attendance has been lower recently. The Chapter reimburses the chefs for the cost of supplies, and is usually able to put a few dollars into the treasury after doing so.

Check out the cook schedule later in the newsletter and then send Sindy an email or give her a call to let her know which month you can do.

Not much else to report other than I made a trip up to Ashland with great granddaughter Norah

a week ago to visit my daughter and her family. We had a great time, went out to eat at several of our favorite places, then I had Norah hand-fly the 182 for about twenty minutes on the way home. She did a great job of holding heading and altitude, even though her legs don't quite reach the rudder pedals. I'll make up some blocks so she can reach them until she grows a bit taller.

See you at the meeting!

Darrel

YOUNG EAGLES

Young Eagles Day for this month is Sunday, June 8. We again had a great turnout, with our volunteer pilots flying 26 Young Eagles, with five of their parents riding in the back seat with their child flying from the front. Definitely a bonding experience.

We had many of our regular pilots, with George Bachich, Robin Tatman, Rick Palumbo, Ken Callandar, Kristen Gregory and myself, and Kevin Horn back after some time away.

Gretchen McDougal arrived early and got registration going, with Ligia Booker joining her to help. Mark Shackford was there to open up and help on the ramp, with Calvin Wojciechowski lending support.

Marsi Allard and Ilario Gallo started a new feature of our Young Eagles rallies by cooking and offering breakfast burritos to participants as another Young Eagles rally and fundraising opportunity.

As is usual, we are always looking for volunteer pilots, ground crew and registration helpers for our monthly Young Eagles events. Let us know you will be joining us and helping out by sending an email to Gretchen at gretchen.mcdougall@gmail.com or me at wd6bor@vom.com.

CHAPTER PIET BUILDING PROJECT

Michael has ordered the metal fittings to be fabricated for the tail feathers for the Piet. He, Ray and Mia have horizontal stabilizer installed and are now working on the vertical so they can get the control cabling run.

SATURDAY BARBECUE

Marilyn, Marsi and Rony and their enthusiastic crew of cooks and servers are continuing to serve lunch to the hungry pilots and Sonoma Skypark friends every Saturday from noon to 1 p.m. The regular Saturday barbecue features a delicious hamburger or hot dog lunch, complete with chips, drinks and a cookie for \$10. The camaraderie is free!

This is Chapter 1268's major fundraiser for scholarships for sending our local Young Eagles to the EAA Air Academy in Oshkosh each summer.

Thanks again to Marilyn, Marsi, Rony and their devoted crew for their very valuable, and enjoyable, contribution to the Chapter.

EAA 1268 FLIGHT ADVISOR

Captain Steve Silver on the flight deck of the Boeing 777

EAA June Flight Safety Report

The topics we have discussed up to this point have been focused on the recognition of internal and external factors that affect the safe operation of our flights.

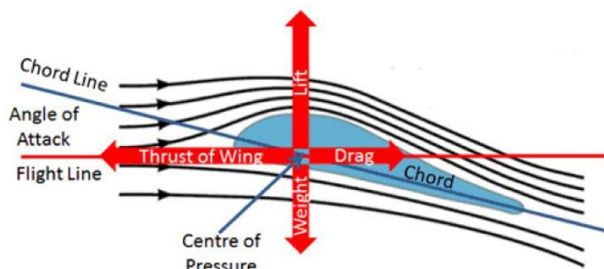

We looked at lessons learned from accidents and incidents to learn from their mistakes, and at human factors topics that are a little more nuanced, but have a significant impact on the safe operation of our flights.

As part of our understanding of the factors that we must consider to make rational decisions, let's work backwards a bit and discuss some aerodynamic principles that are the foundation of flight and how they impact all aerospace vehicles from a Taylorcraft to Boeing 747.

We do not need to have the level of understanding of aerodynamic principles as an aeronautical engineer, but simply a level of

understanding that will enable us to apply aerodynamic principles to our everyday flights.

The basic principles of flight revolve around the four fundamental forces of flight: thrust, lift, drag, and weight. These forces work together to enable an aircraft to take off, maintain flight, and land.

Sir George Cayley is credited with the creation of the science of flight. Cayley became the first to identify the basic problems of heavier-than-air flight, the first to carry out basic aerodynamic research, and the first to discover that curved surfaces produce more lift than flat ones. In 1799, Cayley drew up the earliest known plans for a fixed-wing aircraft

We tend to focus on the Wright brothers, who achieved the first sustained and controlled flight of a heavier-than-air machine on December 17, 1903, at Kill Devil Hills, North Carolina, but the initial science of flight goes back to Sir George Cayley's research.

In future discussions, we will look at the different aspects of the principles of flight, and how we manipulate these forces.

IMC/VMC CLUB

We're still looking for members for the IMC/VMC club. Let me know if you want to belong to this exclusive group.

This Month's Question:

Question: You're about to depart on an IFR flight and although icing is not specifically

forecast for your area, conditions include visible moisture and temperatures nearing freezing. At what point should you turn on your pitot heat?

GROUND SCHOOLS

Mike Smith Aviation at Napa Airport is also holding free ground school classes on Saturday mornings.

Contact Kimberly Sanders Smith at 916-607-4023 for more information.

The classes are held at the flight school at 2000 Airport Road, Napa 94558, 200 yards north of terminal building.

This free ground school coaching session for the Private Pilot Knowledge test is for student pilots, rusty pilots, anyone interested in learning to fly. Everyone is welcome! You'll need to purchase a book, available on site: Gleim Private Pilot Test Prep, \$22.95.

They will be offering an instrument ground school for a nominal fee.

If you have any flight planning gear, such as a plotter, E6B, old sectional charts or anything usable for ground school classes, please bring them to the meeting or drop them off at the clubhouse.

2025 DINNER SCHEDULE

We have some of our celebrity chefs for 2025 but let us know if you want to take an unfilled month. Hot dogs, chili or pizza are perfectly fine. Our meal coordinator is Sindy Mikkelsen at sindymikkelsen@att.net. Let her know you can provide the meal for a meeting and she will put you on the schedule. Copy me at wd6bor@vom.com so I can include you in the newsletter dinner schedule.

Calling all chefs, or at least a chef for the night...

We really want to encourage those that have not in the past hosted one of our dinners, or perhaps it's been a long time, to sign up.

You don't even have to do the cooking; you could order the food and serve it. Easy stuff like pizza, chicken, lasagna, etc. If you're concerned that you can't handle it on your own, speak up, we've got folks willing to help. We just can't rely on the same 3 or 4 folks to do the dinners, we're not being fair to them.

Email me: sindymikkelsen@att.net, or text me at 707-755-0260 and let me know you'd like to help. Also, contact Darrel so he can add your name to our list. We sure wouldn't want folks fighting over the same month (haha).

Thank you, from all of us!

EAA CHAPTER 1268 MINUTES

EAA 1268 Board of Directors Meeting
May 13, 2025

Present President Robin Tatman, Vice President Darrel Jones, Treasurer Ray Gallarate, Secretary Nelleke Cooper, Board of Directors, Don and Ligia Booker, Sat BBQ co-chairs Marilyn Siebert and Marsi Allard

President Robin Tatman called the meeting to order at 6:10 pm

Marsi reported that Ilario Gallo has offered to serve breakfast at Young Eagle events. Suitable dishes like breakfast burritos were discussed.

Robin presented a list of updates needed for the Saturday BBQs. Extensive discussion on how to coordinate and update the system. There are multiple lists, including the sign-up calendar, inventory, coordinators, positions to be filled and many more.

Clarification was provided for shopping assignments, including Robin and Darrel always taking care of the drinks.

Darrel reported on the progress of the four Ray scholars, with one of them having a delayed start due to a medical issue.

Kristen Hannum Gregory is contributing \$3,000 for each of the two Air Explorer students, and we have received \$3,600 from the EAA towards each of the \$9,000 scholarships paid by the Ray Scholarship foundation. The funds for the six Air Academy students are to date fully paid with their flights to Oshkosh scheduled. See Vice president's report in May newsletter.

Ray and Michael continue their Saturday morning work on the Pietenpol project and mentioned Ray's niece, Mia, has been quite helpful.

In the June Newsletter Robin will elaborate on her friend, Delta Captain, Alan Lowe, who started a Go Fund Me campaign trying to help an Indian pilot restore his airplane.

Marsi and Nelleke volunteered to prepare dinner for the Chapter in August.

Board Meeting adjourned 6:40 pm

General Membership Meeting called to order by President Robin Tatman 7:45 pm.

Robin thanked Wayne and Celia Schake and Ligia and Don Booker for the delicious dinner of carnitas, salad, rice and beans and ice-cream bars for dessert.

Robin and Darrel brought the membership up to date on the discussion at the Board Meeting regarding the Saturday BBQ event. It was mentioned that April was a very successful month with proceeds of \$1000. Although Marilyn had intended to retire from her position as Chair, she will continue with the additional help provided.

Darrel gave a progress report on the scholarships, and added that the recipients will give presentations to the Chapter in September and October.

A motion by Darrel, seconded by Ray was approved by the Membership to replace the old refrigerator and freezer at the Clubhouse with new ones.

Darrel had received news from Ernie Ganas's family that Ernie had passed away from Congestive Heart Failure. Ernie had spoken with Darrel while on Hospice to bid his farewells. He enjoyed having been part of our Chapter and we remember his presentation on his time flying out of Crissy Field with special

take-off requirements to avoid the Golden Gate Bridge. He will be missed.

Young Eagles report from May 11, in May Newsletter.

Treasury Report by Ray Gallarate: Checking \$2,762.94, Savings \$15,621.57, CD \$20,138.73, Burgers \$1,009.71, Dues \$40.00,

The speaker for the evening was Will Campbell. Will and Ray Gallarate, took off from Schellville airport to San Francisco Bay to do a photo shoot of the last flight of the historic Martin Philippine Mars on its journey from Vancouver, B.C. to its final destination the Pima Air and Space Museum, AZ. The 5 US Navy Flying Boats, were: the Marianas-, the Marshall-, the Caroline-, the Philippine- and the Hawaiian Flying boats. They were the largest ones ever built with a wingspan of about 200 ft and 100 ft. long, original built as long-range patrol and cargo boats during WWII. After the war several were transitioned to civilian use as firefighting water bombers. They could carry 7,200 gallons of water or fire retardant and 2 of the aircraft dropped over 50 million gallons of water during their lifetime.

Meeting adjourned 9:05 pm

Submitted by Nelleke Cooper, Secretary

THE LAST WORD

I just want to take a moment to thank all the EAA Chapter 1268 members who contribute so much to the success of the Chapter. From the Saturday hamburger crew, to the Young Eagles gang, the Pietenpol team, to folks who bring dinner for the meetings, to the officers and Board of Director members who contribute time and earnest effort to the Chapter business, none of this would happen without their dedication and hard work. Thank you.

When you're out wandering Skypark or hangar talking with other pilots here, take a moment and encourage them to join us in the fun.

Send me your news for your newsletter!

A Dozen Easy Dinner Menus For The Napa Airport Pilots' Association

(With thanks to Kristen Gregory and Jan Wheadon)
